

Isaí Céspedes

Seasoned Junior **Full Stack Developer** with 1.5+ years of hands-on experience in crafting dynamic websites and applications utilizing **cutting-edge technologies**. Proficient in **troubleshooting software** challenges and renowned for innovating impactful solutions that **optimize functionality and user experience**.

EXPERIENCE

At Pylon Data, Software Developer October 2022 to February 2023:

- Spearheaded the diagnosis and resolution of intricate issues within existing applications, resulting in a substantial enhancement of functionality.
- Orchestrated the utilization of version control systems like Git, ensuring seamless development processes and preserving project integrity.
- Facilitated collaborative efforts among developers and stakeholders, instrumental in achieving project milestones with optimal efficiency.

At Microverse, Technical Support Engineer January 2022 to October 2022:

- Reviewed and optimized code for over 200 students, significantly augmenting their grasp of coding principles in JavaScript, Ruby, and SQL.
- Pioneered the development and rigorous testing of pioneering software applications and technologies, contributing significantly to the advancement of cutting-edge solutions.
- Empowered students through hands-on code review processes, providing invaluable insights for a comprehensive understanding of coding methodologies.

At MICROVERSE, Mentor September 2021 to Present:

- Mentored and guided a cohort of six junior web developers, leveraging extensive code reviews to elevate their coding proficiency and skillsets.
- Initiated and implemented code organization enhancements, resulting in a marked improvement in code quality and overall system performance.
- Provided indispensable strategies and advice, playing a pivotal role in sustaining motivation levels and fostering sustained engagement and success within the program.

FORMATION

Microverse, Remote Full Stack Web Development Program from August 2021 to February 2022:

- Invested over 2000 hours mastering algorithms, data structures, and full-stack development, resulting in the proficient execution of projects utilizing Ruby, Rails, JavaScript, React, and Redux.
- Acquired expertise in remote pair programming methodologies, effectively collaborating with a diverse global network of developers by leveraging GitHub, industry-standard git-flow, and daily standups for seamless communication and project collaboration.
